

### Answers from last week (WB 20.4.20) on Chapter 4

1. Answers would be accepted for any appropriate adjectives with a reasonable explanation for each e.g. Unkempt because he his jacket/coat has holes in and dormice in the pockets! Some examples—scruffy, giant, humongous, untidy, unclean.
2. It means he was lost for words because he was so pleased, happy and overjoyed with the gift of the birthday cake. He had never received anything like this before. She uses the description because it tells the reader how shocked and overwhelmed he was with the words not reaching his mouth.
3. Because the Dursleys have not told Harry anything about Hogwarts, magic or the truth about his parents. Hagrid can't believe they have been hiding the letters. I think he is justified because the Dursleys have been very cruel to Harry. Will accept Yes/No to justification question with a reasonable explanation that links to the text.
4. Examples could include Am I a wizard?, How does Professor McGonagall know who I am? What is a Mugwump? What is a Warlock?
5. A human without magical powers.
6. Voldemort caused the injury during a violent accident with his parents. (or something similar)
7. Rubbish. Hagrid's opinion is that the rumour he died is a load of rubbish!
8. With sorrow or regret
