

W/C 25.05.2020: Learning Project - The Rainforest

Age Range: Year 2

Please don't forget to send some of your child's learning to our [padlet page](#), our twitter page [@canonburrows](#), our new facebook page Canon Burrows CofE or to admin@canonburrows.co.uk. We can't wait to see your learning!

*Happy Eid to all our families celebrating.
We wish you all happiness and peace.*

Weekly Reading Tasks

Weekly Phonics Tasks

Monday- Create a sock puppet based on a favourite story character. Show your child how to use the puppet to retell the story the character appears in.

Monday- Can your child think of an animal or plant that begins with each letter of the alphabet. How many of these can be found in a rainforest?

Tuesday- Watch Eric Carle's [Slowly, slowly, slowly, said the Sloth](#) or [Rumble in the Jungle](#). Once your child is familiar with the story, they can read along or join in with familiar sentences.

Tuesday- The tree frog, spider monkey and boa constrictor are just some of the animals that can be found living in a rainforest. Ask your child to list verbs (action words) to describe how each animal moves. How many can they think of?

Wednesday- Ask your child to go and read in a sunny spot in the garden. How did it make them feel reading outside?

Wednesday- Your child could visit this interactive game and play [Forest Phonics](#).

CHALLENGE – Please send us a picture of this task when it is completed!

<p>Thursday- Some of our everyday food comes from the rainforest. Your child can look in the kitchen cupboards and identify foods with the 'Rainforest Alliance' logo.</p>	<p>Thursday- This game helps your child to practise the 'tricky' words for their year group in a fun, interactive way.</p>
<p>Friday- Help your child to look through cookery books for a recipe involving chocolate. Ask them to use decoding skills to read some of the ingredients. They can learn about where chocolate derives here.</p>	<p>Friday- The word 'rain' contains the sound 'ai'. Ask your child to list as many words as they can containing the 'ai' sound. Your child might identify words that contain an alternative spelling for 'ai' such as ay/a-e.</p>
<p>Weekly Writing Tasks</p>	<p>Weekly Maths Tasks- Fractions</p>
<p>Monday- Your child could start a nature diary. At the same time each day, they could record the animals that they can see in the garden or from their window and describe the weather and plants. What differences do they notice over the week? Or a month?</p>	<p>Monday- Cut pieces of paper into different shapes or food that can be sliced, then work with your child to find half by cutting or drawing on the shapes or by slicing the food. Make sure both sides are equal and if they aren't, talk about why it is not half. Repeat for finding a quarter.</p>
<p>Tuesday- Can your child create a fact file about a spider monkey or a tree frog? Describe the animal's appearance, habitat, diet and any other facts.</p>	<p>Tuesday- https://www.thenational.academy/year-2/maths/to-identify-shapes-by-the-number-of-sides-and-vertices-year-2-wk1-1 Watch this video on identifying 2D shapes then head over to the home learning page and have a go at the 2D shapes worksheets. There are a few worksheets but you only need to do one if you would like to.</p>
<p>Wednesday- Your child could write a short description of the rainforest. Ask them to think about what they can see, hear, feel and smell. This live stream may help.</p>	<p>Wednesday- Get a chocolate bar and work with your child on how it could be split into half, quarters and thirds. You could investigate whether the size of the chocolate bar affects how much they get. Does ½ always look the same?</p>
<p>Thursday- Many trees in the rainforest are chopped down to use for paper. Ask your child to create a poster about saving and reusing paper at home.</p> <p>CHALLENGE – Please send us a picture of this task when it is completed!</p>	<p>Thursday (theme)- Your child could estimate and count the number of different plant types or insects that they can see/find in the garden. Record in a table.</p>
<p>Friday- Visit the Literacy Shed for this wonderful resource on Caterpillar Shoes. Or, write an acrostic poem about a rainforest creature.</p>	<p>Friday- Select an even number of some of your children's toys (e.g. toy cars, marbles). Work with your child on splitting the total amount in half by sharing out into 2 piles. Repeat this to find a quarter but share the amount into four piles.</p>

Learning Project - to be done throughout the week

The project this week aims to provide opportunities for your child to learn more about the world's rainforests. Learning may focus on the plants, animals and insects that inhabit the rainforest, food that originates there and weather patterns. It could look at plants and animals that can be found in the garden too.

- **Fascinating Forest Floor-** Can your child create their own replica forest floor? Task them with collecting materials from the garden or during your daily exercise. Why not share a photograph of your child's creations online using [The Learning Projects](#).

- **The Sounds of the Rainforests-** There are many wonderful and intriguing sounds that can be heard in the rainforest. You can listen and watch real footage from a rainforest [here](#) or watch [this BBC Our Planet clip](#). Which animal makes the most noise in the rainforest?. Ask your child to record what sounds they can hear and to predict what animals the sounds have come from. Can your child replicate these sounds using objects from around the home?
- **Where in the World are the Rainforests?-** Using an atlas or online map, can your child locate the continents (Africa, Asia, Australia, Central America and South America) where rainforests can be found? If this is too challenging, can your child locate one country with a rainforest, and then locate the UK. Ask them to describe the similarities and differences between the UK and the country they have located.
- **The Big Garden Tidy Up-** Why not work together as a family and have a Big Garden Tidy Up? Task your child with pulling out weeds, raking up the leaves or just having a general tidy. Take before and after photographs.
- **Sketch a Spider Monkey or a Tree Frog-** Can your child create a detailed sketch of an animal that inhabits the rainforest? Using pencils, crayons or whatever else you have, ask your child to copy an image of a rainforest animal, thinking carefully about the patterns and tones.

CHALLENGE – Please send us a picture of this task when it is completed!

STEM Learning Opportunities & sciencefromhome

Rainforest Insects

- Watch [this video](#).
- There are lots of insects/mini-beasts in the rain forest. You can see some pictures of them [here](#).
- Look for mini-beasts living in the garden or on a walk. What are these mini beasts called? Which one do you like the best and why?
- Try drawing pictures of the mini-beasts you find.

Additional learning resources parents may wish to engage with

- [BBC Bitesize](#) - Lots of videos and learning opportunities for all subjects.
- [Classroom Secrets Learning Packs](#) - Reading, writing and maths activities for different ages.
- [Twinkl](#) - Click on the link and sign up using your email address and creating a password. Use the offer code UKTWINKLHELPS.
- [White Rose Maths](#) online maths lessons. Watch a lesson video and have a go yourself.
- [Times Table Rockstars](#) and [Numbots](#). Your child can access both of these programmes with their school logins. On Times Table Rockstars, children should aim to play Soundcheck for 20 minutes daily.
- [Mastery Mathematics Learning Packs](#). Take a look at the mastery mathematics home learning packs with a range of different activities and lessons.
- [The Rainforest Alliance website](#) is packed full of information, resources and games which may support some of the above activities.
- IXL- Click here for [Year 1](#) or here for [Year 2](#) . There are interactive games to play and guides for parents.

The Learning Projects are based on the **National Curriculum expectations** for the key stage which your child is in. It may be that your child finds the tasks set within the Learning Project for their year group too simple. If this is the case, then we suggest that your child accesses the Learning Projects which are set for the key stage above. Equally, if the projects are too challenging, then we advise that your child accesses the projects for the key stage below.

If your child requires more of a challenge, or you believe that there are some gaps in their learning then [Century Tech](#) is a fantastic resource that is currently free for home learning. The app is designed to address gaps and misconceptions, provide challenge and enables children to retain new knowledge. It uses artificial intelligence to tailor the learning to your child's needs. Sign up [here](#).
